DETAILED ACTION

This action is in response to Amendment filed July 20, 2004. Claims 10 and 21 have been amended as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed July 20, 2004, with respect to claims 21-25 have been fully considered and are persuasive. The rejection of claims 21-25 has been withdrawn.

Allowable Subject Matter

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest a device for applying a variable differential group delay where the first, second and third birefringent elements in order have a DGD ratio of 1:2:1 and the differential group delays being significantly larger than the optical period of the signal at the input of the device.

Regarding claim 21, the prior art of record fails to teach or suggest a device for applying a variable differential group delay having at least four birefringent elements having predetermined static differential group delay each being significantly larger than

the optical period of the signal at the input of the device and a controller for controlling the control devices thereby to provide the variable differential group delay, such that at most two of the birefringent elements have orientations other than 0 or 90 degrees.

The remaining claims depend from claims 1 and 21 and are therefore allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joshua L Pritchett whose telephone number is 571-272-2318. The examiner can normally be reached on Monday - Friday 7:00 - 3:30.
